E Star Trading GmbH

Dear Hiring Manager,

I am excited to apply for the position of Junior Java Developer at E-Star Trading GmbH. I came across the job posting on your website and was immediately drawn to the opportunity to work in the field of energy trading and contribute to shaping the European energy market of the future.

I have a strong background in software development and a passion for creating high-quality software solutions. My experience includes working as a Jr Software Engineer, where I gained hands-on experience in developing software applications and implementing software design principles. Additionally, I worked as a Programmer Analyst Trainee, where I strengthened my programming skills and gained experience in working with different technologies.

During my previous roles, I have honed my skills in Java development and have a good understanding of corresponding tools. I am also familiar with agile methodologies and have experience in working as part of a team. Through my work experience, I have developed strong problem-solving skills and have the ability to handle complex software development tasks.

Apart from technical skills, I possess excellent communication skills in English and have a B2 level proficiency. I am also open to learning new technologies and have a curiosity to work in the field of energy trading, which requires low-latency requirements and highly scalable distributed systems.

I am particularly interested in E-Star Trading GmbH because of its expertise in providing trading solutions for the European energy markets. I am impressed by your commitment to shaping the future of the energy market and your focus on continuous improvement and innovation. I would be thrilled to be a part of your team and contribute towards your mission.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further and how I can contribute to the success of E-Star Trading GmbH as a Junior Java Developer.

Sincerely,

Divya Pyneni
